Humana Health Plan Small Group~

During the actuarial review, the company was asked to provide additional details to support the trend projections, expense assumptions, and rate increases by plan. The company refiled rates because the initial rates included and expected increase in premium tax of 2%. The revised rates were modified to exclude this tax. The requested increase was 10.6 percent but the approved average increase was 7.77 percent. No other changes were made.

The approved rate is 7.77 average increase
